ZUHR time is at midday, i.e. halfway between sunrise and sunset.
 *ASR time is when length of shadow equals item.
 MAGHRIB time, according to FIQH, is when the redness in the eastern horizon passes overhead.
 This has been calculated using 15 min after sunset and End of Civil Twilight (6° below horizon).
 CIVL TWLT time is when sun is at End of Civil Twilight time (sun 6° below horizon).

Qibla : 9° 41' East of Magnetic North (25° 18' East of True North). (As of 01 Jan. 2017, 9° 55' East of Magnetic North. Annual change 14.0' West.) (Source: Natural Resources Canada for Magnetic Declination.)
